

The Opal 90 chimney cooker hood is ideal for a 90cm hob. It can be installed for either recirculation or extraction. Sensitive touch controls seamlessly blend into the design, and the hood closes away when not in use. Price: around £599. ([rangemaster.co.uk](http://rangemaster.co.uk))

This slimline telescopic cooker hood fits flush into kitchen cabinetry for a seamless finish. The motorised 90cm canopy can be activated via a remote control or if fitted with a compatible Miele Con@ctivity 2.0 hob, it will emerge smoothly when the hob is turned on, automatically adjust to the correct setting required for the task in hand and magically disappear once the hob is switched off. Price: £1,975. ([miele.co.uk](http://miele.co.uk))

The CR700 Ceramica island hood has a ceramic body made by hand in a copper finish. It's recirculating with remote control, has four speeds and an LED light. An auto timer switches off the hood 10 minutes after cooking finishes. Price: £2,029 including VAT. ([caple.co.uk](http://caple.co.uk))

The Maris 90 hood is one of nine of Franke's kitchen extractor hoods to have earned Franke's Greenline status. It has an A\* rating, multiple operating speeds with an intensive setting, cut-off timers, digital displays and filter saturation indicators. Price: £990. ([franke.co.uk](http://franke.co.uk))

This impressive bespoke mirrored extractor hood was designed by kitchen designer Laurence Pidgeon. The extractor element is made by Westin Design which specialises in bespoke options, and can be made to any size, dimension and performance setting. Kitchens from Laurence Pidgeon start from £20,000.
