

Dream Design

The @Home kitchen, designed by C&S Architects for Elmar, includes a black walnut 'table' island, tall cabinets and a stainless steel hob, which includes storage.

We've been on the lookout for an amazing product, place or space - something that has the WOW-factor - so we can excite, intrigue and inspire. Would you have this in your home?

SCULPTURAL SYMPHONY

This kitchen's most noticeable feature is its ceiling-mounted 'hood-organ' extractor, which has been created using individual cylindrical modules. More than just an extractor, it also offers task lighting and sound; magically transforming food scents into music. The sculptural design is available in three sizes and can be adapted to accommodate different height requirements. The Elmar @Home kitchen is available from Laurence Pidgeon. From £20,000. laurencepidgeon.com
