

Laurence Pidgeon

Laurence Pidgeon's showrooms are the launchpad for a new and vital design product from Australia. Apaiser are one of the world's leading stone composite bath manufacturers and they have made an important collaboration with leading British designer, Kelly Hoppen MBE.

Kelly has created a range of exceptional, exclusive designs. Her unique range epitomises the apaiser focus on the creation of luxurious ambience in the bathroom. Apaiser's hand-finished stone composite bathware has become

synonymous with luxury and is renowned for its natural organic feel and sculptural form.

Inspired by Kelly's signature style of clean lines and sleek simplicity, they have together created a blend of distinctive curvaceous shapes and highly functional design. The result is a truly sublime blend of inspiring design aesthetic and a luxurious bathing experience. This is truly a collection for the 21st century and can only be seen at our Fulham showroom.
